From the Editor

Merry Winter,

First I must thank Chris Allen for stepping in and covering for me on our last issue. I think she did a fantastic job! I do want to remind everyone that we NEED your support in order to make the Third Eye a continued success. I cant do it alone! This also brings up another great point; the Third Eye is a group effort with many many cogs all moving behind the scene. I hope you all can appreciate what an effort it is! Im so very proud of everyone who supports our efforts and I hope you will consider sending in photos or even submitting an article! Finally, if you have questions, please please contact me. I try to be prompt but your welcome to give me a call any time as well! 607-425-8701

Your Friendly Third Eye Editor,

As I look back at 2015, I can't help but coming back to a few things that just really had a huge impact on me.

First I'd like to address a few "myths" if you will about IHCUS. As a member you have access to the Member's section of the IHCUS forum, where minutes are posted within a few days of their approval, you don't have to wait for the Third Eye to be published to read them. Also ANY member can at any time make application to hold the next unscheduled National Specialty; the guidelines are on the website or ask one of the Board members to forward it to you. The National Specialty does not have to be held in September and if a member puts in a completed application, a Board Member will not put in an application for the Specialty to be held in the default location. Personally I'd love to see a member from other regions of the US apply.

Please keep in mind the IHCUS Board can't address issues or ideas if you don't let us know about them. I have an open door policy however official requests must go through the Secretary. I still believe we as a group brought together by one common bond can accomplish many things. We have already had a few new volunteers step forward to assist with committees and special events. In 2015, we had a few people in the Ibizan community asking for help with unforeseen vets bills for their beloved four-legged family members. The response to me was absolutely

overwhelming. So many people donated either money or items for auction to help raise money for these Ibizan owners. It just goes to prove when we set aside our differences; smooth or wire, this bloodline or that one, conformation or performance, breeders or pet owners, we can come together to support one cause. In these particular cases we pulled together to get necessary medical attention for a dog, so what would happen if we put aside these differences for something bigger than one dog? The Ibizan breed is something we can all agree we love, we're even passionate about, and we all get plenty of enjoyment from our hounds.

For 2016 join me in making a resolution to come together not as breeders or even owners but as lovers of the Ibizan Hound and work towards making our parent club a strong team.

"Every great and commanding movement in the annals of the world is the triumph of enthusiasm. Nothing great was ever achieved without it." Ralph Waldo Emerson

Respectfully submitted,
Christy Shaw

The 2015 AKC National Lure Coursing Championship

By Holly Hamilton

This year's AKC National Lure Coursing Championship was held November 7th and 8th in

in Edmond, Oklahoma hosted by the Tulsa Sighthound Association 2015 was the original approved year by AKC, but due to unforeseen circumstances TSA also hosted it in 2013.

This year's event was chaired by Ibizan owner/breeder/exhibitor Christy Shaw and the Field Trial Secretary was Eddie Kominek, afghan hound owner/breeder/exhibitor.

According to Shaw, "As Chair I was responsible for everything from start to finish, and I was extremely fortunate to have many volunteers that took true ownership of their responsibilities. Eddie did a fantastic job posting scores on FaceBook just as quickly as he was getting them."

The NLCC site is a former 40 acre horse farm so the club ran two fields at a time so the event was quite efficient with minimal equipment issues.

Scott Redding, Ibizan breeder/exhibitor and paddock master states, "Everything went smooth overall. The line broke a few times, but that's normal."

Wendy Hodges a basenji owner participant raved that, "The NLCC breed finalist runs were my all time favorite. Seeing each breed's best dogs of the weekend run together was breathtaking. Lure Operator Greg Breitbach set poetry in motion and time stood still as they coursed across the golden field set against a clear blue sky."

Says Kominek, "I did get to see my three dogs run on some great fields with spectacular lure operators. That was one thing I think clubs running not just the high-level events, but all events need to do well: get good, safe lure operators. I was really happy with the lure operator's that TSA pulled because I knew no matter who my dogs were running under, they'd run well and safe."

Shaw's favorite run of the weekend was the Best In Field runs on Saturday. In particular, was the Best in Field tie run between the Afghan Taisto and Stanley the Ibizan.

"The crowd called the tie from the first set of runs and all eyes were glued to the tie run. It was simply breathtaking from both the dogs," says Shaw.

The grounds were frosty each morning but quickly dried once the sun came up. Beautiful rosettes were created by Regal Rosettes and breed trophies were made of acrylic and metal from DJ's Metal Art with the breed artwork created by H & H Art. Special this year for those dogs who were the breed finalists, several parent clubs sponsored hand-made sculptures created by Couture Canine. Tulsa Sighthound Association was quite grateful to receive all the perpetual trophies this year. There were entries from across the US.

According to Kominek, "The TSA was great to work with: a seriously fun bunch, but amazingly professional and they made the trial go like clockwork. Only thing from the Field Trial Secretary perspective is that I might change would have been the closing date. NLCC never takes day of entries because of catalog printing and ordering of merchandise. The closing date being close to five weeks out I think caught a lot of exhibitors off guard as most of us are used to the two and a half weeks closing before conformation shows."

Rob and Christy Shaw of Notanuff Ibizans have entered dogs since the 2009.

Shaw says, "We thoroughly enjoy an event of this nature and at least one of us have been fortunate enough to go for the past seven years. We also enter because we know our dogs love to course and we feel our dogs are good representatives of the breed in the sport of lure coursing."

MBIF DC Alike Notanuff's Made In Wonderland SC FCh – Stanley was the Saturday BIF winner of the Lyle's Dream trophy. He is the first Ibizan to receive this win since the dedication of the trophy in 2009

REGULATIONS FOR THE NATIONAL LURE COURSING CHAMPIONSHIP (From AKC)

A National Lure Coursing Championship Trial for all Sighthounds may be held not more than once in any calendar year, and shall be for registered hounds which are qualified by having met the eligibility requirements specified below.

The winner of this trial shall be designated "National Lure Coursing Field Champion (NFC) of 20__."

ELIGIBILITY REQUIREMENTS FOR ENTRY

All hounds must be qualified to enter AKC Lure Coursing Trials as stated under Chapter I, Section 3 of the Regulations for Lure Coursing Tests and Trials. Any of the following requirements shall qualify a hound to enter the NLCC:

1. All eligible hounds which have earned an AKC Field Championship prior to the closing date for entries.
2. All eligible hounds in the Top 25 hounds of each breed from the preceding calendar year, using The AKC designated system for breed points.
3. All eligible hounds which were awarded a Best in Field at an all breed AKC Lure Coursing Trial in the current year.
4. Best of Breed on each day of the most recent AKC National Lure Coursing Championship.
5. All eligible hounds which were awarded Best in Field at an AKC Lure Coursing trial held in conjunction with that breed's National Specialty.
6. All Open and Veteran hounds must have an accumulation of at least 3 points.

CHAMPIONSHIP COURSES and RUNNING RULES

COURSES: The Championship Committee shall provide two preliminary courses and two Final's courses for the NLCC. The courses must be a minimum of 800 yards in length. The courses shall be in close proximity, but should not interfere with each other while running the hounds. The two courses shall be designed to test all abilities of the coursing hound speed, agility, follow and endurance. The course designs shall be printed in the National Championship premium list. The Event Committee shall provide sufficient equipment necessary for the smooth running of the event.

RUNNING RULES:

1. Each of the two days of the NLCC shall be a standard AKC Lure Coursing Field Trial, complete with points, placements, Best of Breed and Best in Field. All hounds unless excused by the Inspection Committee or excused, dismissed or disqualified by the judges shall run once on each of the preliminary courses.
2. All entered and eligible hounds shall be separated by breed and shall be randomly drawn into threehound stakes. In the event the number of hounds can not be divided into threehound courses, one or two hound stakes are permitted. The hounds will be randomly drawn regardless of ownership. The remaining hounds in competition of each breed shall be redrawn after each preliminary course.
3. Following completion of the second day's trial, the National Lure Coursing Championship Finals will begin. Each breed's Best of Breed winner from the first and second days' trials and the hound of that breed, with the highest combined points from both days' trials will be run for NLCC Best of Breed. These hounds shall be randomly drawn for position and shall be redrawn after each course.
4. In order to be eligible for NLCC Best of Breed, the hound must have completed both the first and second days' trials.
5. The Best of Breeds and Best in Event shall be officiated by all four judges and the dogs will be scored in the normal manner.
6. All hounds running for NLCC Best of Breed unless excused, dismissed or disqualified shall run the Best of Breed course. In the event of a Best of Breed tie, the combined points from both days' trials shall be used to determine the winner. Should a tie still remain, a single run off of the tied hounds shall decide the Best of Breed winner.
7. All NLCC Best of Breed combined winners except the Italian Greyhound will run for the title of National Lure Coursing Field Champion (NFC) of 20__. These hounds

shall be randomly drawn prior to running the final course.

8. The hound with the highest combined score, from the four judges, shall be designated the National Coursing Field Champion for 20___. In the event of a tie, the tied hounds shall be run off to decide the winner.

Vanna will now be listed on Eterna trophy.

THE HEART OF THE AKC

AKC BREEDER OF MERIT PROGRAM

AKC Breeder of Merit Participants demonstrate a commitment to the AKC Community, dedication to their breed(s), and actively promote the sport of purebred dogs. The AKC is proud to recognize AKC Breeders who are dedicated to breeding beautiful purebred dogs whose appearance, temperament, and ability are true to their breed. These breeders are the heart of AKC.

AKC BREEDER OF MERIT REQUIREMENTS

The following must be met in order to be accepted into the program:

- Has a history of at least 5 years involvement with AKC events.
- Earned AKC Conformation, Performance or Companion* event titles on a minimum of 4 dogs from AKC litters they bred/co-bred.
- Member of an AKC club.
- Certifies that applicable health screens are performed on your breeding stock as recommended by the Parent Club.
- Demonstrates a commitment to ensuring 100% of the puppies produced are AKC registered.

*CGC (Canine Good Citizen or Community Canine) title does not meet the event requirements.

AKC BREEDER OF MERIT BENEFITS

- Breeder of Merit registration applications and registration certificates featuring a special designation
- Complimentary access to online reports
- Access to the AKC Direct toll free number
- Online record support
- A certificate of distinction
- Breed-specific web banners that participants can use to proudly promote their involvement in the Program
- Acknowledgement on AKC.org
- Lapel pin
- And more!

Do you meet these requirements? Visit this link to apply

B Naturals Newsletter

By Lew Olson *Newsletter

*Permission for reprint

Animal-based fats are essential for dogs. They are what your dogs need and crave the most! Fats offer a good source of calories and are needed for energy, to absorb fat soluble vitamins (vitamins E, A and D), to protect nerve fibers and to keep dogs warm during the winter months. Additionally, they offer the flavor to the foods your dog loves! Unlike us, dogs do not respond to fats the way our bodies do. They do not get 'hardening of the arteries' and they do not have to worry about cholesterol clogging their arteries. Dogs are carnivores and their systems are uniquely designed to digest and utilize fats.

Fats contain the essential fatty acids, omega 6 and omega 3, that dogs need for good health. If you are feeding your dog a healthy raw or home-cooked diet, it will be getting a sufficient amount of omega 6. The needed omega 3's however, are not as readily available in the foods we feed our dogs. Therefore, if a dog is found to be deficient in fats, it is typically a deficiency in omega 3 fatty acids. Therefore, adding omega 3 in the form of EPA fish oil is recommended.

The early signs of a fat deficiency typically show up as skin problems such as seborrhea, dermatitis and poor hair coat. However, omega 3 fatty acids do not just support the skin and coat. They are necessary for proper heart, liver and kidney function, they support the immune system and help keep inflammation at bay.

While fat is essential for canine health, there are times when you need to reduce the amount of fat in the diet. When this happens, you can reduce the amount of fat you feed without compromising your dog's healthy diet. You can reduce fat content in the following ways:

- Remove the skin from chicken
- Use low-fat or non-fat yogurt or cottage cheese
- Feed lower-fat meat proteins, such as chicken and turkey with skins removed
- Trim excess fat from red meats
- Drain and rinse canned fish such as canned mackerel, salmon or sardines before serving
- Feed egg whites (remove the yolks)

Some of the canine health conditions that require a reduction in fat are listed below.

Irritable Bowel Disease, Colitis and other gastric problems

When your dog suffers from Irritable Bowel Disease, colitis or other gastric issues, the intestinal tract can become inflamed making fats harder to digest. When this happens, it is suggested you feed a diet lower in fat and feed smaller, more frequent meals. Low-fat diets and smaller meals put less stress on the intestinal lining allowing the digestive tract to heal. In addition to adjusting the diet, there are some beneficial supplements that should be added to provide additional support to the digestive system. These include probiotics, animal based enzymes and l-glutamine. Probiotics help restore the good flora and fauna bacteria that may be lost, the animal based enzymes help predigest fats in the stomach making digestion easier and the l-glutamine helps heal the lining of the digestive tract. Bertes Digestion Blend is a good source for all of these helpful nutrients. For more information and sample diets for feeding low glycemic,

low fat diets, see: <http://www.b-naturals.com/newsletter/gastric-problems/>
Pancreatitis

While pancreatitis isn't caused by fat, fats can aggravate an already inflamed pancreas. As with IBD and other gastric problems, it is important to feed smaller, more frequent meals and to reduce fat in the diet. Animal based digestive enzymes, such as Food Science All-Zyme, are also important to add to the diet during pancreatitis attacks for additional digestion support. For more information on diet and causes of pancreatitis: <http://www.b-naturals.com/newsletter/pancreatitis/>

Diabetes

Diabetes in dogs destroys the beta cells in the pancreas making it impossible for the body to produce insulin. While some cases of diabetes may be genetic, it is also believed that long-term feeding of diets high in carbohydrates (sugar) and poor protein sources that have been over processed can also lead to diabetes. Since the pancreas is directly involved, the fat in the diet needs to be reduced. Diet recommendations include low carbohydrate, medium protein and reduced fat. If your dog has diabetes, a low glycemic (low-sugar) diet along with reduced fat is

helpful. Sample recipes can be found here: <http://www.b-naturals.com/newsletter/low-glycemic/>.

Cushing's Disease

This disease is caused by adrenal malfunction that causes the adrenals to produce too much cortisol. Dogs with Cushing's disease are more prone to develop pancreatitis. Symptoms of Cushing's disease include weight gain, a 'pot belly' appearance, increased thirst and urination, hair loss, darkening skin pigmentation and panting. If your dog exhibits any of these symptoms, it is important to have your veterinarian perform blood work, urinalysis and an ACTH stim test to get a confirmed diagnosis. A low glycemic, low fat diet is also beneficial for this condition. <http://www.b-naturals.com/newsletter/low-glycemic/>.

Hypothyroidism

Hypothyroidism results in the thyroid gland not functioning properly which causes the thyroid to not produce enough hormones. The cause of this is not well understood, however it is suspected it may be part of an autoimmune disease where the body attacks the thyroid gland. Dogs prone to pancreatitis can occasionally have hypothyroidism. Symptoms can include hair loss, weight gain,

fatigue, high cholesterol readings on blood work, darkening of the skin and occasionally anemia. If your dog displays some of these symptoms and you suspect your dog may have a thyroid problem, have your veterinarian run the 6-panel thyroid test. The results of this bloodwork will confirm if your dog has a thyroid issue. Medication can help bring your dog back to good health. Since weight can be an issue with hypothyroidism and hormone fluctuation can affect the pancreas, a low glycemic, low fat diet is also beneficial for supporting both of these conditions. <http://www.b-naturals.com/newsletter/low-glycemic/>.

Epilepsy

Epilepsy is a frustrating and puzzling disorder because of the difficulty in determining the cause. It may be the result of poisons or chemicals or an injury to the head. Newer research suggests some foods such as glutens, which are found in many grains, and sugar, found in grains and starches, may trigger seizure activity. Eliminating grains and starches from the diet and feeding low-glycemic vegetables instead, as well as feeding a good variety of bioavailable animal protein sources that contain taurine and

l-carnitine may help inhibit seizures. Feeding the low glycemic, low-fat diet is beneficial for dogs prone to seizures. <http://www.b-naturals.com/newsletter/low-glycemic/>. In addition to diet, the supplement DMG liquid (Dimethylglycine) is made from glycine, an amino acid found in protein, may also help control the incidences of seizures.

Weight Loss

Obesity is a common problem in dogs, especially as they begin to age. When you know your dog needs to lose weight, you may look to the supermarket shelves or your veterinarian's office for the best low-fat dog food available. There is no doubt you will find a plethora of commercially processed dog foods marketed to meet your dog's weight-loss needs.

However, when you read the product labels, you will find that fat and protein are reduced and carbohydrates and fiber are increased. While these diets may offer fewer calories, they also offer fewer nutrients, less appetizing foods, and ingredients that are difficult for your dog to digest. While obesity is most common in senior dogs, their senior years are not the time to reduce the quality nutrients needed to stay healthy. Senior dogs actually require more quality protein than adult dogs. They are

essential for keeping the heart, liver, kidneys and lungs healthy and keeping the immune system strong. Additionally, fat is what satiates a dog's appetite and keeps it satisfied longer. Feeding commercially processed senior diets or weight loss diets keep your dog hungry and begging for more food. Rather than reduce nutrients and lower fat, feed less food – but make sure the ingredients of the diet include quality proteins and fats to ensure your dog is getting the quality nutrients it needs for good health and to satisfy its appetite. A good starting point is to feed your dog between 2% to 3% of your dog's ideal or 'target' weight. Watch your dog's weight closely and adjust the food quantity as needed to reach your dog's weight goal. For more help on weight reduction, read here: <http://www.b-naturals.com/newsletter/pudgy-pups/>

Fall is here and the temperatures are quickly dropping!

Keep your dogs warm and well hydrated by feeding them quality fats and lots of fresh water.

IHCUS Monthly Board Meeting Minutes

September 2, 2015 Teleconference

Present Officers: Pres: C. Shaw, VP: M. Pierotti-Tietje Secretary: T. Basch, Treasurer: D. Nester, BOD: C. Allen, R. Castillo, J. Rivers, Past Pres: L. McKay

Absent BOD: A. Harper

Called to order: 8:09 pm.

President Report:

Secretary: M. Pierotti-Tietje motions to approve July minutes. Seconded by L. McKay. Vote: Passed unanimously.

Treasurer's Report:

- PayPal -\$5124.63
- Chase Checking -\$26,264.94
- Chase Savings -\$100
- TOTAL -\$31,489.57
- Denny has posted profit and losses & an expense report from January 1, 2015 – August 28, 2015 on the treasurer information topic on the forum. He has also posted a 2nd quarter expense report on the forum.

- The officers of the board have been set up an internet access to the chase account for viewing purposes only.

Committee Reports

AKC Delegate: None

Awards: None

Health and Research: None

Historian: None

Judge's Education: None

Membership: The application is complete for Heather Dahlin and can be reviewed on the membership topic of the forum.

Outreach: 3 cards sent in July.

Rescue: None

Third Eye: 2 color & 1 B&W ads have been purchased.

Breeder Referral: None

Ways and Means: Currently focused on National items.

Website: Blue host is updating their server, so we must update our website, K. Anderson will assist C. Allen with the manual update.

National Specialty:

- Auction: A round robin was used to determine the beneficiaries of the proceeds. 1/3 of the proceeds will go to Ibizan Hound Rescue in Spain and 2/3 will go to the Club.
- T-shirts: help will be needed distributing and selling T-shirts until Robin is done with judging sweepstakes on Friday.
- Help is needed for a Meet the Breed booth on Saturday.
- Numbers are down this year for all performance and confirmation entries.
- 2016 will be in conjunction with Pharaoh Hounds, IGs, & German Pinchers. C. Allen will be having a teleconference with the representatives of these breeds along with Purina Farms to determine event sharing.

New Business:

- Committee Chair responses to the letter from Christy regarding staying on, resigning, or getting a co-chair
 - o Sarah Beaupre would like to stay on as Awards Chair
 - o Charlene Fortner would like to continue to serve as the Historian Chair but would like to step down as Health & Research Chair.
 - o Shelley Kozinski is happy to continue chairing the Membership committee.
 - o Chris Allen is willing to stay on as Website Chair & WAM co-chair
 - o Eric Liebes would like to stay on as Judge's Education Chair to finish the pictorial explanation of the Breed Standard
 - o Meegan would like to stay on as the Third Eye Editor but would like assistance. She would like to step down as Breeder Referral and is recommending Alexandria Mitchell-Lynch as a replacement.

o Michelle Barlack would like to remain the rescue chair and the AKC Delegate.

The board will be asking members for volunteers for all committees.

- Request from Cathy Hjelm: There has been some discussion in the last 2 years, while at our Southern California Ibizan Hound Club specialties as well as conversing with numerous judges regarding our judge's education. I know that there was a new handout for the judges which is, according to the judges that I've talked to, really more book like than a quick go to.

I would like to nominate Heidi Clevenstein and Michelle Paulin to co-chair a judge's education committee that would not only serve the judges with a quick and easy guide to our breed, but also to educate the current and future breeders of our beloved dogs. Both of these women are highly respected, long time breeders and exhibitors of Ibizan Hounds and I feel that they have knowledge that needs to be shared before it is too late.

A letter will be drafted to notify Cathy of the acceptance of volunteers for all committees and due to the time commitment involved we will not assign members to committees without prior notification of willingness to volunteer.

- Inappropriate posts on Facebook. Since it was not on the IHCUS page no action will be taken.

Old Business:

- Lisa McKay completed the ballot counting and tallying for the 2017 & 2018 judge's nominations. She will be posting the results on the forum and in the third eye.

Next IHCUS Monthly BOD meeting will be on October 7, 2015 at 8pm EST via teleconference.

Meeting Adjourned at 9:39 pm, motion by J. Rivers, Second by C. Allen. Vote passed unanimously.

Winter 2015

Ibizan Hound Club of the United States National Specialty

September 11, 2015

Judge's comments from Eric Liebes

What a pleasure and honor to judge this exceptional National Specialty entry of a breed I have loved for 35 years. In that time, I have seen our breed type converge to the elegant, athletic, unique hunting hound our breed standard describes. To the breed's great benefit in the United States I've also seen the introduction and inclusion of good typey wires into our breeding gene pool. The high quality of today's entry is a living testament to many Ibizan breeders past and present. By focusing on proper structure and type and by insisting that our show dogs also perform in the field these breeders have set a great foundation to take our breed into the future.

Thanks to the IHCUS and the Show Committee for inviting me and for putting on a first class event. Thanks to the exhibitors who provided me with hard choices and great winners. Congratulations to the winners at the specialty and those who won later in the weekend. All were worthy!

--Eric Liebes

4-6 Month Beginner Puppy:

#5 & 6, Nice well-shaped puppies just finding their legs. Both showed good typey front lift. The Bitch was a litter better going away today and was awarded Best 4-6 Month Beginner Puppy.

DOGS:

12-18 Dogs:

1. #11, A nicely proportioned youngster who handled his legs & feet better on the move. His topline was better standing than moving. Both dogs in this class were on the tall side.
2. #7, Nice prominent sternum in profile. He was looser in front and feet. Could have more return of upper arm and this was reflected in his gait.

Bred-By-Exhibitor Dogs:

1. #19, The eventual Winners Dog. In a class of handsome well-proportioned dogs, he was the easiest on the move, very balanced. Nice front angles and sternum. His 2nd thigh might be a little long in the stack but he used it well to generate drive.
2. #15, The eventual Reserve. He was the next most efficient and balanced on the move. Not as smooth in front on the go as #1. He had the best outline in the class when standing. He has good depth for a young dog (15 months); I expect his eyes will darken with age.
3. #21, Balanced and handsome dog but with not enough reach or lift.
4. #17, A youngster (13 months) who did not settle down on the go-around. His ears could have been bigger.

A very competitive class with nice heads, good legs, feet and proportions for all.

Open Smooth Dog:

1. #23, Well-conditioned dog who was very good going away. Good proportion. Lacking balance in head shape.

Open Wire Coat Dog:

1. #25, Nice moderate sized dog with a pretty head. Never really settled down on the go-around. Good depth and proportion, too long a 2nd thigh on the stack.

Winners Dog and Reserve:

Winners Dog: Wire dog #19 from Bred-By continued to be the most balanced and smoothest going around, with typey lift and good reach.

Reserve: Bred-By 2. # 15. Carried his topline the best of the Reserve class, his go-around was relaxed and efficient.

BITCHES

6-9 Puppy Bitch:

1. #8, Light and easy on her feet, a sound puppy. Nicely proportioned with the right amount of bone. Good depth of chest for a youngster. Never really used her ears.

12-18 Bitch:

1. #10, Nice moderate sized girl. Pretty head. Lacking in drive and depth of chest today.

Bred-By-Exhibitor Bitches:

1. #12, The best muscled, easiest moving bitch in this nice class. Good front flexion and balance. Croup a little steep.
2. #16, A close call, with the class winner. Well proportioned, pretty, did not dig in as well on the go-around.
3. #14, Pretty young bitch who could have shown more drive, this day.
4. #18, A little frightened, pretty bitch with good body.

Open Smooth Bitches:

1. #22, The eventual Reserve. Best balanced strongest moving bitch in this nice class. Perfect size and proportions, good lift, pretty head. Showed well.
2. #20, Another nice strong moving bitch. Good depth of body. She carried her rump a little high on the go.
3. #24, Very pretty bitch, just did not dig in and show the movement the others did.

A very competitive class with good heads, feet, movement and proportions all around.

Open Wire Coat Bitches:

1. #26, The eventual Winners Bitch and BOW. Very sound moving, great proportions and depth. Pretty head nice medium size. She moved with more drive in the Winners class than in this class.

Winners Bitch and Reserve:

Winners Bitch: Open Wire #26 showed herself to be the most athletic and balanced in the Winners competition.

Reserve: Open Smooth #22. Just as pretty and balanced as the WB, the Open Wire showed more strength on the go around. A very close call between Winners and Reserve.

Veteran 7-9 years Dogs:

1. #29, The eventual Best of Opposite Sex to the Breed. Both dogs showed great movement, proportions and head type. Both dogs in this class showed the moderate degree of angulation desired in the breed and had good legs, front and rear. This dog won the class on those good features and because his depth of chest fit the standard perfectly.
2. #27, A very good dog. This was a close call for 1 and 2 in this class. This dog was light on his feet, sound and handsome. He could have had a deeper chest.

Veteran 9+ years dogs:

1. #33, 10 ½ years old. This dog still has nice balance and strength in his movement. Both dogs in this class had great masculine heads and good proportions.
2. #31, 12 years old. A credit to his breeder and owner, a handsome dog who carried himself well.

Veteran 7-9 years Bitch:

1. #28, A pretty well proportioned girl, nice size and angles.

Veteran 9+ years Bitch:

1. #30, 12 ½ years old. Beautiful head and rear on this bitch. Still getting around in a nice manner.

Lure Coursing Class Bitches:

1. #34, The eventual AOM and BOH winner. Both bitches in this class had beautiful heads and outlines. This one was smoother on the go. Great strong movement with good lift and balance.
2. #36, Another lovely bitch. She was not as smooth on the first couple of go-arounds but showed herself better as the class continued. Lovely proportions and depth of chest on both of these girls.

Best of Breed competition:

Best of Breed #50, Perfectly shaped, moderately sized bitch who was both free moving from the side and perfectly sound coming and going. Consistently the best on her feet, the prettiest, the showiest. Showed great rear drive on the move along with typey lifting movement. Great in breed specific proportions, topline, and depth of body. Perfect in depth and length of second thigh on a moderately angled rear. Won the breed over an especially strong specials bitch entry.

Best of Winners #26, A sound beautiful bitch who looked at home in the specials entry.

Best of Opposite #29, Handsome masculine dog who showed perfectly though the breed competition. Excelled in depth of body, typey movement and nice masculine head. He carries his maturity (7 years old) without coarseness.

Select Dog #43, Handsome and typey dog with great body and strong correct movement. He was not as crisp in showmanship as the BOS dog.

Select Bitch #58, A serious competitor for Best of Breed. Lovely headed bitch with good body depth and smooth movement. Good front movement, carried her topline well standing and on the move.

Awards of Merit: (listed in catalog order)

#34, The Lure Coursing Class Bitch winner. Great strong moving bitch with great breed specific prominent sternum and depth. This bitch was also my Best Owner Handled winner.

#40, A lovely and feminine bitch with perfect proportions, depth and outline. Typey movement. Strong topline.

I find that many of my comments have mentioned crediting proper depth of chest in my awards. Indeed, this was a theme in this entry. Our standard specifically asks for the deepest part of the chest to be nearly to or to the elbow. While it is a challenge to breed this depth with our unusual front, it needs to be this way to provide heart and lung room for function. It is possible. Look at the winners of this specialty.

Thanks to all of you again for the opportunity to judge this spectacular entry. Both in the Best of Breed competition and in the classes the quality of the bitches was especially strong and deep. This speaks very well for the future of our breed as these are the dams of the next few years.

In a recent timeline several cherished Ibizan Hounds have crossed the Rainbow Bridge from SunRumba Sighthounds of AZ.

They will be forever missed but never ever forgotten along with what each and every one of these Ibizan Hounds has taught me.

Robin Castillo

SWEEPSTAKES 2015 IHCUS ENTRY SUMMARY

JUDGE: Robin Castillo

.....

I want to personally thank the members for giving me this wonderful opportunity to judge the 2015 IHCUS National Sweepstakes. It was an honor and a joy which meant a lot to me being in the breed for 17 years.

Much appreciation to those that came to the National and entered.

The sweeps classes were fun to see the youngsters and heartwarming to see the veterans. In the 18 months and under there were a few topline issues, loose fronts and minor lack of breastbone which physical exercise and maturity should provide improvements over time. All bites and dentition looked good!

In the veterans the muscle tone was impressive showing that this breed is a true testament of longevity.

Overall the sweepstakes entry was very nice and presented themselves with elegance.

In the future I would like to see more members and exhibitors support the club by assisting the chair positions, join the show committee with your ideas, interact with new Ibizan Hound owners and develop more camaraderie by attending our other events, meetings, hospitality and banquet. I was very sad to see how limited all these areas have become and not being able to visit with many I only see via social media.

Looking forward to 2016 IHCUS National

Sincerely,
Robin Castillo

Please email submissions to thirdeye@ihcus.org

Remember, photos should be at least 300dpi or higher

If you have questions, please contact us via the above email address.

Guidelines for Conducting IHCUS Business

Forms of Communication: Questions or concerns from IHCUS members should be submitted to the Secretary via E-mail at secretary@ihcus.org or USPS. The Secretary is not responsible for communications addressed other than by these means. The Secretary will ensure the information reaches the proper IHCUS individuals for action. *There is no need to address anything to the Secretary and each Board member individually.*

Complaints: Must be in hard copy, signed, and mailed to the Secretary via the USPS.

IHCUS is not responsible for addressing any e-mail communications that use a Board member's personal e-mail addresses. *Please use the IHCUS designated e-mail addresses such as: secretary@ihcus.org etc. which are listed in every newsletter and on the IHCUS website.*

Response Time Goals: The Secretary will acknowledge receipt of communications no later than 7 working days from receipt date. The Board strives to provide a response no later than ten working days after the next scheduled IHCUS Board meeting.

THANK YOU!

IHCUS would like to extend a heartfelt thank you to all those who volunteered to assist in making the National Specialty a great success! Many of you jumped in and volunteered to do things big and small and we cannot thank you enough. Your various donations continue to ensure that our club is able to have such a wonderful Specialty!
